

Java2Days - Day 1

VITOSHA - Keynote Speakers

RODOPI

8:30 - 9:30

Registration & Coffee

9:30 - 10:30

OPENING

10:30 - 11:15

"Engineered Systems in the Cloud",
Falk Kukat, Oracle

"Scala - a modern object oriented functional language on the
JVM",
Vassil Dichev

11:15 - 11:30

Break

11:30 - 12:15

"Enterprise Java in 2012 - a Spring Perspective",
Juergen Hoeller, VMware

"Project Fox - A Tool that offers automated testing using a
formal approach",
Ivo Neskovic

12:15 - 13:00

"Java FX 2.0",
Michael Heinrichs, Oracle

"OSGi Security Services. Consolidation patterns for legacy
components",
Stefan Vladov, Software AG

13:00 - 13:45

Lunch Break

Java2Days - Day 1

VITOSHA HALL

RODOPI HALL

VIHREN HALL

13:45 - 14:30
"Modern Annotation - Based Code
Generation with Jannocessor",
Nikolche Mihajlovski

"The First Complete Cloud Management",
Jan van Tiggelen, Oracle

"Getting Video into Mobile Apps: A Case
Study",
Dave Springall, YoSpace

14:30 - 14:45

Break

14:45 - 15:30

"The HTML 5 Landscape",
Andrew Lombardi

"Building Cloud-Ready Systems using
Spring Technologies",
Oleg Zhurakousky, VMware

"The Changing Role of Mobile Operators",
Atanas Raykov, Vivacom

15:30 - 15:45

Break

15:45 - 16:30

"Reanimating Legacy with
Hazelcast",
Armin Gal, Playtech

"Taking your Application to the Cloud",
Josh Long, VMware

"Developing for the QNX-based
BlackBerry",
Kamen Vitanov, RIM

16:30 - 16:45

Break

16:45 - 17:30

"Do Less, Get More: Real World
Testable JavaEE
Development with
Arquillian",

"Master the Cloud Power with Windows
Azure",
Raya Yunakova, Microsoft

"The Good, the Bad and the Ugly ... Things
to do
with Android",
Stanojko Markovik

17:30 - 17:45

Break

17:45 - 18:30

"Beautiful Java EE: URL-rewriting for
the Next-Generation Web User",
Lincoln Baxter III, JBoss

"Using Java Script to Build iOS
Applications",
Andrew Lombardi

18:30 - 19:00

Q & A Session in VITOSHA Hall

Java2Days - Day 2

VITOSHA HALL

RODOPI HALL

VIHREN HALL

08:30 - 09:30

Registration & Coffee

09:30 - 10:15

"Virtualization via Glassfish V4",
Fabien Leroy, Serli

"Pomodoro Technique - Can you focus
for 25 minutes?",
Staffan Noteberg

"Legacy vs. Greenfield: Building for the
Cloud?",
George Reese

10:15 - 10:30

Break

10:30 - 11:15

"Modern Component Design with
Spring 3.1",
Juergen Hoeller, VMware

"Developing your App for Nokia – with
Symbian Belle, NFC, the next billion or
Windows Phone!",
Andreas Jaki, Nokia

"Cloud Storage Simplified",
Adrian Cole

11:15 - 11:30

Break

11:30 - 12:15

"Building Better Clients with Spring",
Josh Long, VMware

"Regex - the future programmer's best
friend",
Staffan Noteberg

"Operation is a Strategic Weapon",
John Willis

12:15 - 12:30

Break

12:30 - 13:15

"Scala for Spring
Developers",
Oleg Zhurakousky, VMware

"To Code or not to Code - Developing
Software via Integration",
Nenko Tabakov, Software AG

"Delivering IaaS with VMware vCloud
Director",
Maya Ilieva, VMware

13:15 - 14:00

Lunch Break

Java2Days - Day 2

VITOSHA HALL

RODOPI HALL

VIHREN HALL

13:15 - 14:00

Lunch Break

14:00 - 14:45 "Forge New Ground in Rapid Enterprise Software Development",
Lincoln Baxter III, JBoss

"Don't lose customers - assure the developmenet of secure applications",
Ivo Penev, IBM

"WebLogic Side-by-Side Deployment: How to enable two versions of a single application to run simultaneously on the same server",
George Moykin, Oracle

14:45 - 15:00

Break

15:00 - 15:45 "A Giant Hop Forward with Spring Roo",
Josh Long, VMware

"Actors on the JVM for concurrent and distributed computing",
Vassil Dichev

"Domain Specific Languages (DSLs)",
Igor Stoyanov, VMware

15:45 - 16:00

Break

16:00 - 16:45 "What's new in Spring Integration Framework 2.1",
Oleg Zhurakousky, VMware

"OpenDDR: let's enable optimized Mobile contents. Together. ",
Werner Keil

"Distributed search with ElasticSearch and Amazon EC2",
Pavel Penchev, Fredhopper

16:45 - 17:00

Break

17:00 - 17:45 "Death of the Slow: Jboss AS7",
Andrew Lee Rubinger, JBoss

"Compute Clouds as Code",
Adrian Cole

17:45 - 18:30

Q & A Session in VITOSHA Hall
